office of the Pacific News

AN ACT authorizing a loan of money to
pay the immediate demand on the Treas-
ury, until a permanent fund can be
raised for that purpose.

THE people of the state of California,
represented in Senate and Assembly
do enact as follows:

Sec. 1. The Treasurer of the State be
and is hereby authorized and empowered
to receive proposals in writing until the
twenty-fifth day of January, 1850, at 12
o'clock M. of that day, from any and all
persons, to loan to this State a sum of
money not exceeding two hundred thou-
sand dollars, for a time not more than
twelve, nor less than six years, payable at
the pleasure of the State, at any time after
six years.

Sec. 2. It shall be the duty of the Treas-
urer at any time after noon of said twen-
ty-fifth day of January, 1850, to open any
and all propositions filed with him for said
loan, in the presence of the chairman of
the Finance committee of the senate, and
chairman of the committee of Ways and
Means of the assembly, and said Treasurer
and the chairman of the said committees
shall proceed to select from all of said
bids such one or more as they may deem
most reasonable and best calculated to se-
cure said loan; provided, however, that
said Treasurer and committee-men shall
lay all such proposals before the Legisla-
ture for their approval.

Sec. 3. If the Legislature shall decide to
accept or instruct the Treasurer to accept
any such offer, for any part or the whole
of said loan, of the sum of money, it
shall be the duty of the Treasurer of the
State, and he is hereby authorized and re-
quired to prepare and execute bonds in
such form as he may deem proper, for such
amounts as may be agreed on between
himself and the lenders, in sums not less
than five thousand dollars, and made pay-
able to the lender or lenders, at the time
stipulated by the parties and bearing such
rate of interest as may be contracted for
by the parties and approved of by the Leg-
islature, payable quarterly yearly out of any
money in the Treasury not otherwise ap-
propriated: said bonds shall be signed by
the Governor and countersigned by the
Treasurer, and shall be delivered to the
successful bidder of said loan whenever
the money so loaned shall be paid into the
Treasury, and to the amount only of such
payment, and at such time after the con-
tract for the loan is made as the Treasurer
shall choose to call for it, and if the lender
shall fail on such call to pay into the Treas-
ury the amount so agreed to be loaned,
his contract for said loan shall be forfeited
or not, at the pleasure of the Legislature.

Sec. 4. For the payment of the interest
according to the stipulations of this act,
and the ultimate redemption of the prin-
cipal of the loan hereby created and au-
thorized, the revenues present and pro-
spective and faith of the State are irrevoc-
ably pledged.

Sec. 5. This Act shall be in force from
and after its passage, and a certified copy
thereof filed in the office of the Secretary
of State.

(Signed) Thos. J. White,
Speaker of the House of Assembly.

(Signed) Geo. McDougal,
Lt. Gov. and President of the Senate.

Approved January 6th, 1850.

Peter H. Burnett,
Governor of California.

The Mosquito Question.

The late news from Nicaragua is of such serious import, that it renders the Mosquito Question a matter of great interest to our community. On its surface it appears to be a question of but little importance. (But as we look along the political horizon of our times we fear that this speck betokens a tremendous storm. Behind it lies, a deep principle, which must finally become an issue between the United States and Great Britain. It seems but a little thing to cause the two most powerful nations of the earth to open upon each other their tremendous batteries,—this mere question whether a company of speculators shall have such a right of way across a certain territory, as shall insure the success of their speculation.

Did the question stop here, the idea of war would be ridiculous. But it must be remembered, that in this very question is involved the serious, the vital point of the right of European interference upon the American Continent. We look upon this point as the one which, if any, will be likely to involve us in a bloody war with those who speak our language, and to whom we are bound by the strong tie of a common literature, and of common customs;—with those who stand next us, shoulder to shoulder, in the van of that army, which is performing the sublime work of civilizing, and republicanizing the world. A few remarks touching the nature of this question, and what has given rise to the present difficulties, may not be without interest to our readers.

It will be remembered, that the Mosquito Territory lies adjacent to the Republic of Nicaragua. That Nicaragua is one of the southern States of Central America, bordering upon the Pacific. The Territory of the Mosquito King bounds it partly upon the north, and lies from Cape Honduras in a southerly direction, along the Caribbean sea. It is alleged, that the Mosquito King and his chiefs never acknowledged the supremacy of Spain. But, on the contrary, some time after the conquest of Jamaica by the expedition sent forth by Cromwell, they placed themselves and their nation under the protection of the English Government. Charles second, in whose reign this took place, graciously promised them his protection. In 1749 a fort was erected by the British upon the Mosquito coast, and the English flag hoisted, thus proclaiming, that the independent country was under the direct sovereignty and protection of Great Britain.

Now to a clear understanding of the whole matter, it must be recollected, that the government of Nicaragua has treated with the United States, and granted the right of way for a canal, which shall connect the Caribbean sea with the Pacific. This canal is to run by way of the river San Juan and Lake Nicaragua. The mouth of the San Juan is to be one of its termini. The Mosquito King claims, that the river San Juan empties into the Caribbean sea through his territories. Nicaragua denies this; and holds that the entire course of the river lies within its own borders. Here then is the point, which has given rise to the difficulty between England and America. If this territory belongs to Nicaragua, she certainly has power to grant the right of way through to the Caribbean sea. If it belongs to the Mosquito King, the question then arises, will America submit to any interference on the part of a European power upon the American continent?

England has espoused the cause of the Mosquitos, not because of their weakness, or inability to maintain what they deem to be their rights, but because of the supposed commercial advantages to be gained by such a course.

How stands the matter now? England states that the Mosquito territory extends from Cape Honduras to the southern mouth of the San Juan. She generously espouses the cause of the Mosquito King—with an eye to her own pocket. She sends her ships, the Alarm and the Vixen, to have an especial eye to the rights of the Mosquito King, as laid down by her. Nicaragua refuses to admit this claim in its entire extent. Captain Gran-

ville Loch lands with an army, drives the Nicaraguans from the mouth of the San Juan, pierces with his forces into the heart of the State, and on the 7th of March, 1848, extorts a treaty from the Nicaraguan Ministers, by which the government of that State solemnly promised not to disturb the peaceful inhabitants of San Juan, understanding that any such act would be considered by Great Britain as an open declaration of hostilities; and that the Mosquito tariff, established in that port, should be respected. But, be it remembered, that Nicaragua still claims San Juan as its own,—while England holds it for protection. What the course of the government at Washington will be, whether or not it will espouse the cause of Nicaragua, remains yet to be seen. We look anxiously for the next news from the States.

It seems to us, that a vital point to be decided, is as to the rights of Nicaragua to set up any claim for the port of San Juan and the mouth of the river. The length of this article will not permit us to make, at the present time, any remarks on this head.

The Sandwich Islands.

We learn, from the Polynesian of November 10th, that the following is the population of each of the Sandwich Islands:

Hawaii	27,204
Oahu	23,145
Maui	18,671
Kauai	6,941
Molokai	3,429
Nuhau	723
Lanai	528

Of these, the number of foreigners is one thousand seven hundred and eighty-seven, which gives for a native population 78,854, and a grand total of 80,641.

We are happy to see that it is a main policy of the Hawaiian Government to encourage the establishment of schools, and to foster them in every practicable way.

We learn, from the Polynesian of December 22d, that the American whale ship Tobacco Plant was sold at public auction on Dec. 19th. The ship brought \$3,200, and the oil ranged from 19 1/2 cts. for whale to 74 cents for sperm.

The following is a list of the shipping in port on Dec. 22d:

Propeller Massachusetts, S. B. Knox; Am. sloop of war St. Mary's, Commodore Voorhees, for East Indies.
Haw. brig Pacifico, Bogue, Howe, for San Francisco; Am. brig Rob't Bruce, Dockendorf, for San Francisco; Am. bark Victory, Ryan; Br. bark D. Grant, Edie, Starkey, Janion & Co., for San Francisco; Am. ship Capitol, Bradbury; Am. brig Brothers, Soule, for San Francisco; Am. brig Henry, Roberts, for Oregon; Chilean brig J. R. S., for Valparaiso; Am. brig Copiapo, Southward; Am. bark Ocean Bird, Hall, for Oregon; Am. ship Pharsalia, Allen; Hol. bark Three Brothers, Swart, for Hong Kong; Haw. schr. Gesine, Heslop; Fr. ship Bon Pere, Du Peyrat; Am. brig Patapso, West, on the reef; Am. ship Elizabeth Ellen, Truman; Am. bark Henry Harbeck, Merwin; Br. bark Krishna, Spence; Chil. brig F. Carolina, Alvares; Haw. schr. Kalama, Bent, for San Francisco; Haw. schr. Greyhound, Church, for New Zealand; Am. whale ships Wolga, Luce; India, Swift; Heroine, Wall; Warren, Evans; L'Grange, Dexter.

Oregon.

We have no advices from Oregon later than November 29th. There is no news of especial interest. In the Spectator of that date, is a long leading article upon the neglected interests of the territory. The first item of complaint is with regard to the mail routes and post offices. In no community can the inhabitants of Oregon find more sympathy, on this point, than in our own. We shall take occasion, however, at an early hour, to make a few remarks touching this head. Another point of grievance is with regard to a vacancy, which, for many months, has existed in the bench of Judges. Complaint is also made that a prosecuting attorney has never been appointed.

We extract the following remarks, relative to remittances of money for the purposes of defraying the expenses of the territory:

There was an appropriation altogether of \$32,000 for the civil government of this territory. So far as we can learn, this money has not been forwarded. The year for which it was appropriated, expired on the 30th of last month. It is surely time that it had arrived. The officers of the general government know very well that funds are needed to defray the expenses of the government of Oregon, as well as other countries. Why

have they neglected this matter? The most part, if not all, of this appropriation is now due, and in these monied times, the funds would come exceedingly convenient to those to whom it is due.

The article then concludes by recommending the immediate presence of a Revenue Cutter at the mouth of the Columbia. A suitable vessel has been sent there, but unfortunately it was wrecked before its arrival at its destination. Another vessel should certainly be ordered out at the earliest possible moment. For while that point is wholly unprotected, it may naturally be expected that foreign vessels will trespass on the revenue laws of the country, and not only detract from the receipts at the Custom House, but also from the profits of American shippers and traders. The article suggests that "a good steamer might perform a double service. While it could successfully discharge the office of a Revenue Cutter, it could tow in the sail vessels, which are now compelled to wait, sometimes even for weeks, for favorable winds, in order to pass the bar."

Items.

The British East India Company intend to adopt the underground telegraph, for the 10,000 miles of line they are preparing to lay down in that country.

The Chinese Junk, which is now in the river Thames, attracts thousands of visitors.

The Little Rock Democrat, (Arkansas,) gives an account of the return of a portion of a party of ninety men, who left in August last, on a gold hunting expedition to the Wachita mountains. They have carried back no gold, but silver ore of extraordinary richness, which was found in a high prairie ridge, and the quantity is said to be inexhaustible.

M. De Garay, who is directly connected with the Tehuantepec route enterprise, has arrived at New Orleans, in the steamer Teviot, from Vera Cruz. He states that a good wagon road over the Isthmus, would be completed in about four weeks. The distance is one hundred and forty-four miles, of which one hundred and fifteen are by land and twenty nine by water, and over this a mail may be carried through in fifteen hours. The total elevation to be overcome over the whole route between the two oceans is about six hundred feet.

We learn that the Hon. Walter Forward has accepted of the appointment of Charge d'Affairs to Denmark.

SAYINGS OF THE "MUD SPIRIT."

Reader, what d'ye think the Spirit of the Mud said to us just now? "Why," said he, rushing into our room, "confidentially, Mr. Editor, every step a man takes, in such a country as this, is a case of suction!" He had lost one of his boots.

MATTERS AND THINGS.

Abandoned.—Henry T. Myers, formerly of this place, and lessee of the "Ward House," some few weeks since was appointed by the meeting of citizens, treasurer of the "Relief Fund," and the moneys placed in his hands. On learning the fact, a few days since, that Col. Myers had become embarrassed in his pecuniary affairs, we understand that a portion of the Relief Committee waited upon him, and they were promised that that fund, raised by voluntary donation for relief of suffering in this city, should be held sacred. However, in violation of this promise, and in violation of the trust reposed in him by the community, Col. Myers has absconded from this place, as is supposed, to the Sandwich Islands, and taken the funds of the association with him, amounting to something about \$1,000. We understand that the relief committee are shortly to call a meeting, when we hope such measures will be adopted as will secure the arrest of Myers, and punish him in a manner that such distasteful conduct deserves.

We have just received, from the officers of the Relief Association, a public notice, which gives a description of Myers, and in which they offer a reward of \$1000 for his arrest. The notice was received too late for insertion in this number. But we shall publish the advertisement in full in our next sheet.

Sacramento.—The latest advices from the scene of the late flood inform us of the abatement of the waters. No farther damages have occurred to property, other than those mentioned by us; and the prospects now are that business, in the course of a few days, will again assume its wonted lively aspect.

Ayunamiento.—We understand that it is the intention of the council to publish, in the newspapers, the entire proceedings of that body. This is a movement that will prove satisfactory to many who have supposed that they had good reason for fault-finding.

Eagle Theatre.—The manager is making improvements for the comfort of the audience. A good bill is presented for this evening—the Bandit Chief and the burletta of Hasty Conclusions. By the way, the best instrumental music we have heard in California, was produced on Wednesday evening, by the orchestra attached to this establishment.

Olympic Circus.—The performances at this place, on the occasion of the clown's benefit, went off in a creditable manner. Quite a desirable improvement, we notice, has been made by the manager. A number of private boxes, fitted up in a tasteful manner, and provided with comfortable seats, have been set apart for the use of families, and private parties—a matter heretofore much needed. If proper entrances are provided by our places of amusement, and suitable accommodations made for comfort, we may hope to see the dress circle graced by the presence of our ladies and families. There is still much room for improvement, Messrs. Managers, and he who satisfies the necessities of the public first, will be sure of a rich reward. We understand that Manager Rowe contemplates changing his establishment to an amphitheatre giving, on the same evening, dramatic and equestrian entertainments. We look upon this contemplated movement as a wise and judicious one.

Daguerreotypes.—Frequent inquiries have been made of us as to the whereabouts of an artist, by persons desiring to send home the shadow of their appearance in California. We learn that Mr. Defrees, in Clay street, just above the Plaza, over Woodruff & Addison's store, is eminently successful in taking correct likenesses, which can be sent home by mail or express line.

Court of First Instance—Civil Cases.—Hon. W. B. Almond, Judge.—Eliza W. Farnham, vs. ship Angelique and Phineas Windsor, Master. Plaintiff sued to recover damages alleged to have been sustained in consequence of non-fulfilment of contract, by defendants. Evidence was introduced intending to show that the plaintiff contracted in the city of New York, for transportation to this place, of herself, two children and servant; that during the voyage plaintiff's servant became connected by marriage with the steward of the ship, and that her services in consequence were rendered of no value to plaintiff. That plaintiff, on her arrival at Valparaiso, hired another servant, which the defendant refused to convey, for the reason that she was without a passport, and ordered her to be put ashore in the boat;—plaintiff accompanying her for the purpose of obtaining the necessary documents; and during her absence the ship put to sea, taking with her, plaintiff's two children. Defence, general denial, and evidence adduced for the purpose of satisfying the jury, that plaintiff went ashore voluntarily, although warned by the Captain that his ship was ready for sea, and he would wait for no one. Verdict for defendants.

Jordan vs. ship Gange.—An action to recover damages alleged to have been sustained by a collision of the vessels Amazonian and Gange, while lying at anchor in this harbor. Evidence was adduced intended to prove that the plaintiff's vessel was in the berth assigned her and properly moored; and that defendants moored in a position, so that on the turn of tides a collision was probable. Defence attributed equal blame. Verdict for plaintiff of \$2750.

The Court of First Instance in Civil Cases has appointed Wm. M. Hoffman, Esq., Public Administrator for the District of San Francisco. Mr. Hoffman is a gentleman well calculated to give entire satisfaction in the discharge of his duties as administrator, and we congratulate the public on the propriety of this selection.

Coroner's Inquest.—Sheriff Townes was called, on Wednesday last, to hold an inquest upon the body of a man found lying dead at the foot of a ladder in Happy Valley. It appeared in evidence that the deceased was a Dr. McNair, formerly of Arch street, near Ninth, Philadelphia; and that he had been quite ill for some time, from dysentery, and became very much reduced. From the position in which the body was found, it was supposed that deceased, either in ascending or descending the ladder that led to his room in a building, from previous emaciation became so exhausted as to cause him to fall and break his neck. Verdict in accordance with the facts.

ASYLUM for the sick.—Dr. H. B. May,
A would respectfully inform the public
that he has opened an institution for the
sick, on Jackson street, south of montgom-
ery. Having had many years experience
in conducting one of the largest private
hospitals in the city of Boston, he feels
confident of meriting a share of public
patronage.

He employs in the treatment of disease,
the sulphur-fume, iodine and simple va-
por bath, so generally used in the hospi-
tals of Europe and America; with these
auxiliaries this asylum presents induce-
ments to the sick, not to be found else-
where in this city. Separate apartments
for each patient. Especial attention given
to the treatment of gravel and stone in
the kidneys and bladder. Dr. S. H. P.
Lee's Lithontriptic is employed.
Terms, \$10 per day.
Baths administered to the public at all
hours, Sundays excepted. On sale, Dr.
May's invaluable dysentery and diarrhoea
syrup. lxiii tf
